

Chicagoland Lionel Railroad Club Purchased Run Time

The Chicagoland Lionel Railroad Club (CLRC) is a private club consisting of dues paying members. As part of their membership, members are granted the privilege of running their trains on the two club layouts. With our current schedule of being open every Saturday and one night during the week, a member has that opportunity 104 times each year.

At our monthly Open House sessions, we have received numerous inquiries about permitting members of the public to run their trains on the Club layout. After much discussion, the CLRC Board has agreed to grant non-members that privilege as outlined below.

1. Run time on the club layouts may be purchased at the following rates:

1 Hour - \$20.00

2 Hours - \$35.00

3 Hours - \$45.00

The time purchased may be used in 30 minute increments, with a maximum of 60 consecutive minutes, anytime the Clubhouse is open with the exception of Open House sessions. Open house sessions are very crowded and very busy.

2. The purchaser and his/her family members will be admitted to the Clubhouse for the purpose of using purchased run time. Children must be supervised by a parent or guardian at all times.

3. The purchaser may run his/her trains on either of the two club layouts.

4. Additional rolling stock to be pulled by the purchaser's locomotive is available at no charge.

5. The purchaser may pay for the privilege of running a club provided locomotive at the rate of \$5.00 for 30 minutes.

6. Run time is available in 30 minute segments from 9:00 A.M. to 2:30 P.M. on Saturdays and from 6:30 P.M. to 9:00 P.M. on week nights. The purchaser may schedule a specific run time in advance by contacting the Club's secretary, Al Havlicek via e-mail at havli_lisle@sbcglobal.net or by phone at 630-852-6038. Al will advise the purchaser if the requested time is available and record the request. The requestor shall arrive at least 30 minutes prior to their scheduled run time to allow for the set-up of equipment and instructions on running their equipment on the layout.

7. During run time a club member will be assigned to supervise and assist the purchaser and to answer questions.

8. The purchaser shall be furnished a schedule of all run time dates available.

8. The purchaser shall receive a "Run Time" ticket showing the amount of time purchased.

We are offering you the opportunity to experience running a train on a large layout without the expense of constructing one. You can run that longer consist, or experience the excitement of running one of the larger locomotives.

If after the purchaser has used all of his/her run time, they wish to purchase a full 2009 club membership, the \$30.00 Initiation Fee shall be waived if the application for membership is received prior to 2/1/2009.
