## May 2022

### CLRC GOES TO PULLMAN NATIONAL MONUMENT

CLRC member Tom McMahon invited us to see his Pullman town that was developed by George Pullman for his workers. The Pullman Homes became a “Historic District” which maintains the fronts of the houses to be the same as were originally built. The Pullman area became a National Monument in 2015. We started at the Pullman Exhibit Hall which shows the beginning of Pullman, his family, the building of Pullman town, the strike and much, much more. He shows how the Polar Express movie was influenced with the Pullman Clock Tower. Please watch the video for Tom’s explanations.

## Animals are on our layout!

Jeff Mills and the Animal Crew are making sure that our layout has a variety of critters making the layout that much more exciting. The Animal Crew wants you to look for them. Do not help others, let them enjoy the moment of discovery. The animals are to scale (very small). Here are some pictures.

Bigfoot

Camel

Cats

Deer

Cougar

Rabbits

Moose

Elk

Alligator

Pigeons

Eagle

Pig

Sheep

Ducks

Raccoons

Skunks

Squirrels

Smokey the Bear

Holy Cow

Dog

### May Open House

We had our last Open House of the season on May 21, 2022 and had a very good turnout. Members enjoy conversations, sharing train running, and much more with our guests.

Trains are running and members and guests are enjoying good conversation

Regarding our current Club Car, it is in our building. If you have not ordered your car yet, it is worthwhile to order, (including the **black door** version) and send the completed application to Bob Ciolino. Only 4 left.

**Railroading Merit Badge is coming up June 4, 2022. Please let me know if you can help. By Email is best.**

There is a new video for the Lionel BNSF SD70MAC engines. I also run the engines using the Bluetooth option.
